DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Lambeth et al.
 (U.S. Patent No. 4,423,934).

Lambeth discloses a camera with information storage means to store preset driving information for an optical device having an external device for inputting the information into the storage means.

Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 4. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are not clear as to what claimed elements are part of the claimed "optical device". For example, claim 1 sets forth in line 1 "An optical device comprising....an information write device for writing the preset information in said storage means from outside said optical device". To claim that the information write device is external to the optical device

and yet the optical device comprises the information write device is self-contradictory. The claims are unclear as to whether the information write device is a component of the optical write device or not.
